**Subject:** RE: PFAS Coordinating Committee: Special Call

And ps. I don't think charlotte or I were on the invite list—can you include us in these efforts.  
Thanks.

---

Nancy B. Beck, Ph.D., DABT  
Deputy Assistant Administrator, OCSPP

**Subject:** RE: PFAS Coordinating Committee: Special Call

Thanks Tala – I understand. If Nancy B or Charlotte B attend we will be in good shape. Bottom line is we have a very short window to establish the Action Agenda for the administrator by January 19<sup>th</sup>. There are several potential elements that could fall into OCSPP's lane or partnering between OCSPP and other programs. For now, establishing the elements to include in the Agenda will need folks who possess a combination of program knowledge, imagination, and reality.

Jeff Morris and I will be attending an OPPT Public Meeting on this day/time and will therefore not be able to attend

**Call-in Number:** 1- **Conference Line/Code / Ex. 6**

PFAS Coordinating Committee Members,

Due to the recent request by Mike Flynn to recommend near-term actions by January 19<sup>th</sup>, we would like the Coordinating Committee members (or your designated representative) to join a call to discuss next steps.

The emailed request from Mike Flynn is as follows:

“Taking action to address the growing concerns with PFAS chemicals in the environment is fundamental to our commitment to protect public health and support communities. Therefore, I am requesting that by January 19, the PFAS committee recommend near-term actions that EPA can take to define the scope and extent of PFAS in the environment, better understand the potential health effects and exposure to these chemicals, and identify tools that state and local governments can use to assess and address PFAS in their communities. The committee should ensure that recommended actions reflect the most recent and best available science and any information data gaps. In addition, communication and coordination with the states, partners and the American public will be essential as we work together to address PFAS in our country.”

Also, please access this link to the [press release](#) posted on 12/5.

Thanks,  
Tom & Peter
